- Warehouse to Store deliveries
- Inter-store deliveries

Business to Customer (B2C):
- Ecommerce/Omni-Chanel
- Drop shipping

Business to Government (B2G)
- Inspection Handling
- Sample Submission

As a leading logistics provider in the UAE, ZFS offers seamless logistics and supply chain solutions across the GCC region. We specialize in cross-border transportation and are well versed with export & import HS code/compliance requirements & approvals. Valuing business nature, we act as consultant to determine the best shipping methods based on cargo nature, approvals & volumes to avoid challenges, reduce lead time and cost.

FTL (Full truck load) & LTL (Less than truck load) open and boxed fleets available from smallest to largest size: 3-Ton, 7-Ton, 10-Ton, 40FT & 45FT

VALUE ADDED SERVICES

- LTL Consolidation
- Re-Packing – Palletizing & Labelling
- Dashboard and Reports

2• CROSS BORDER SHIPMENTS

For Urgent and high-priority shipments, ZFS offers fast and reliable air freight solutions. We collaborate with leading airlines to provide flexible and cost-effective options, ensuring swift deliveries with real-time tracking and secure handling across international destinations.

4. AIR FREIGHT SERVICES

SEA FREIGHT SERVICES .3

ZFS provides comprehensive ocean freight solutions connecting global markets with GCC business. Whether FCL (Full Container Loads) or LCL (Less-than container load). Our partnerships with major shipping lines ensure competitive rates, secure handling and timely deliveries worldwide.

For products to be complied and ready to be shipped, testing and reporting is mandatory for items which are regulated by ministries. Our expertise and partnerships support in offering reliable service with lower lead time, accuracy and efficiency. We cover certification for regular commodities such as Electronics, Cosmetics, Food, Kitchen wares and other accessories.

6. PRODUCT TESTING & CERTIFICATION

STORAGE & DISTRIBUTION .5

Warehousing: Storing goods in a centralized facility.

Inventory Management: Keeping track of stock levels, order fulfilment, and replenishment.

Order Fulfilment: Picking, packing, and shipping products to end user.

Cross-Docking: Transferring goods directly from inbound to outbound transportation with minimal storage.

Returns Management: Handling returned products and managing reverse logistics.
